5480 is on your left, about 1 ½ blocks down, next to A Cote' restaurant.

Once at 5480 College Ave.

There is a keypad lock on the door. The code is **3-2-4**, with 3 being the third button from the top, 2 being second from the top, etc. Push each button separately and then turn the latch clockwise (to the right). You may have to twist the latch quite hard to get it to open, as it sticks. If the door does not open, turn the latch counter-clockwise to 'clear' the lock and try again. You should hear a 'click' each time you push in a button. Once inside, come upstairs. There is a wooden panel with nameplates on it. Push the button next to my name and the light next to it will light up. That will let me know that you have arrived. Have a seat and I will come out and meet you.
